THE RESTAURANTS

Here is some advice for your enjoyment during the stay. No need to go to overpriced Courchevel to enjoy fine dining. According to Tripadvisor La Tania has some of the best tables of the valley (n 1 and 2 as I write these lines).

Le Farçon The michelin star restaurant in La Tania. For special occasions	According to Tripadvisor one of the best table in the whole Courchevel valley, and one of my favorite places wherever. You can find the menu here. It changes regularly so take a look at it at the last minute.
Les Chanterelles	For everyday dinning and local specialties . Good value for money. http://www.laferme.latania.fr/fr
Le Bouc Blanc Restaurant d'altitude at the gondola summit	Yes, according to Tripadvisor, la Tania hosts two of the three best restaurants of the Courchevel valley (out of 108) ! The Bouc Blanc is a different style from the Farcon, but as pleasant. Even if you are not a skier, taking the gondola up to the restaurant is well worth the trip ! And in summer the gondola is free !

List is not exhaustive, please dont hesitate to give me any feedback on local restaurants so that I keep this list evergreen.
